[Approved by Governor September 29, 2020. Filed with

LEGISLATIVE COUNSEL'S DIGEST

AB 2157, Wood. Health care coverage: independent dispute resolution process.

Existing law provides for the licensure and regulation of health care service plans by the Department of Managed Health Care, and provides for the regulation of health insurers by the Department of Insurance. Existing law requires each department to establish an independent dispute resolution process to resolve a claim dispute between a health care service plan or health insurer, as appropriate, and a noncontracting individual health professional, and sets forth requirements and guidelines for that process, including contracting with an independent organization for the purpose of conducting the review process. Existing law requires each department to establish uniform written procedures for the submission, receipt, processing, and resolution of these disputes, as specified. Existing law requires the independent organization, in deciding the dispute, to base its decision regarding the appropriate reimbursement on all relevant information.

This bill would require the procedures established by each department to include a process for each party to submit into evidence information that will be kept confidential from the other party, in order to preserve the confidentiality of the source contract. The bill would specifically require the independent organization to conduct a de novo review of the claim dispute, based solely on the information and documents timely submitted into evidence by the parties. The bill would require the independent organization to assign reviewers to each case based on their relevant education, background, and medical claims payment and clinical experience.

The people of the State of California do enact as follows:

SECTION 1. Section 1371.30 of the Health and Safety Code is amended to read:
