

CAHP Seminar: Data Sharing Across Sectors to Support the Whole Person

Timi Leslie, Founder and President, BluePath Health
Leader, Connecting for Better Health

March 29, 2023

Connecting for Better Health

Advancing data sharing to improve the health of all Californians

A diverse group of young people, including a Black woman, a Black man, a young woman with a shaved head, and a young woman with long dark hair, are smiling and laughing together. The background is a soft-focus outdoor setting.

Supporting California's health care transformation

Connecting for Better Health strives to advance data sharing to improve the health of all Californians.

Why is data key to whole person care?

Impact of Health Data Exchange

Recent workshops highlighted needs of CBOs & social services organizations

Lack of Access to Necessary Information

Data Scattered Across Multiple Platforms

Duplication of Data Entry

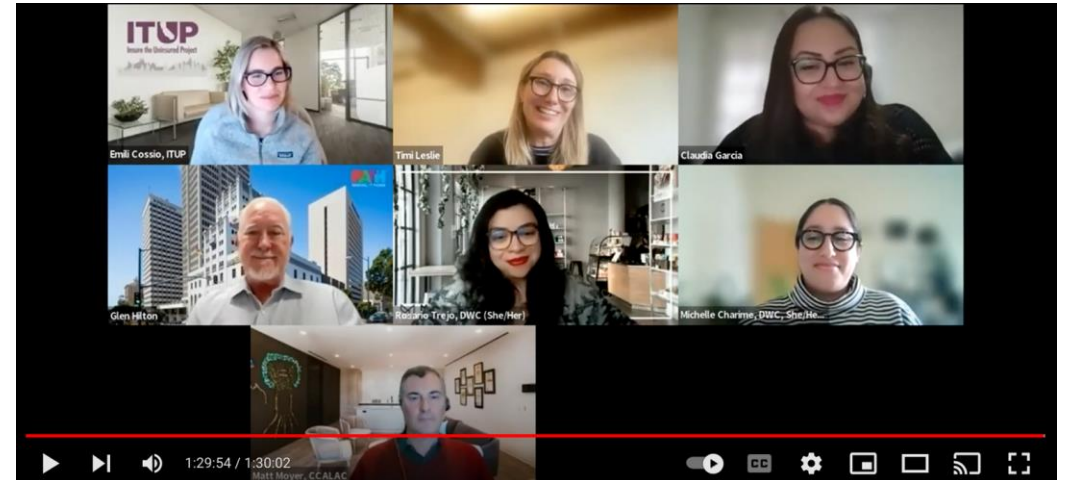

MCP Providers and CBOs Learning to Work Together

Systemic Barriers between Health and Social Service Agencies within Counties

Varying Data Submission Requirements for Different Programs

Recommendations based on recent workshops

- ✓ On-the-ground **partnerships** to collectively map out local resources
- ✓ **Technical assistance and funding** for information exchange infrastructure
- ✓ **Trust-building** across the spectrum of care is key to system transformation and better health outcomes

Have you signed the Data Sharing Agreement?

Learn About California's Data Sharing Agreement

California's new Data Exchange Framework won't replace the many Health Information Exchange systems already up and running across the state.

The CalHHS Data Exchange Framework (DxF) is an agreement and set of policies & procedures that will accelerate and expand the statewide exchange of health information among healthcare and human service organizations and entities beginning in 2024.

There are 3 grant opportunities available to address areas where resources are required: Educational Initiative Grants, QHIO Onboarding Grants, and Technical Assistance Grants.

Signing the Data Sharing Agreement is a critical next step toward full implementation of the Data Exchange Framework. Learn more on our website.

Connecting for Better Health

Advancing data sharing to improve the health of all Californians

Thank you!
